

## Project of Local Technical Assistance Services in the field of Regional Economic Integration and Trade Facilitation for the project INTEC- SIECA

AENOR has been providing services to the Secretariat of Central American Economic Integration for many years, being the trusted provider of that entity for its certifications in the field of quality.

Likewise, AENOR works in the field of international projects with this entity. Specifically, AENOR is currently part of the consortium that executes the Technical Assistance project in the field of Regional Economic Integration and Trade Facilitation, supporting the 8 Central American countries.

As a result of the good relationship with SIECA, AENOR received the visit of its secretary general in 2019, who gave an interview for the AENOR Magazine. Read the full interview:
